SmartView™ WEB EMS

- 60-day Free Trial & 15 IP Without A License
- Web-based User Interface
- Remote Access & Centralized Device Management

CTC Union's SmartView™ WEB EMS (Element Management System) is a comprehensive network management solution designed to monitor device performance, enable remote configuration and provisioning, and provide real-time fault notifications for all CTC Union network devices. Want to learn more about SmartView™ WEB EMS? Starting today, we are offering a 60-day free trial, giving you the opportunity to experience firsthand how SmartView can bring high value and efficiency to your network management.

New Products

Industrial PoE Switch

[IGS-402CS-4PH24](#)

[► more](#)

4x GbE RJ45 + 2x 100/1000Base-X SFP with 4x PoE 120W, **24/48VDC**

[IFS-402CGS-4PH24](#)

[► more](#)

4x FE RJ45 + 2x 100/1000Base-X SFP with 4x PoE 120W, **24/48VDC**

NEW

Key Features

- 4KV surge protection for PoE, UTP and SFP ports
- 24/48VDC (20~57VDC) redundant dual power input
- Wide operating temperature -40 ~ 75°C
- Provides 4-port IEEE 802.3at/af PoE output (30W/Port)
- IP30 Rugged Metal and compact Size
- EN 62368-1, EN50121-4, EN61000-6-2, EN61000-6-4, CE and FCC certified

4x FE RJ45 + 2x 100/1000Base-X SFP with 4x PoE 120W, 48VDC

Key Features

- Provides 4-port IEEE 802.3at/af PoE output (30W/Port)
- Maximum PoE output power budget 120W
- 48VDC (44~57VDC) redundant dual power input
- IP30 Rugged Metal and compact Size
- 4KV surge protection for PoE, UTP and SFP ports
- Supports flow control
- Provides broadcast storm protection

Recommended Products

Industrial PoE Injector, Splitter and Converter

An increasing number of PoE devices are being deployed in industrial automation and CCTV surveillance systems to reduce cabling costs and simplify maintenance. PoE injectors are especially valuable for upgrading existing networks, enabling PoE support without replacing all equipment. CTC Union offers a full range of PoE injectors designed to support diverse power inputs, temperature ranges, power levels, and PoE standards. In addition, we provide high-quality, reliable PoE splitters and PoE converters to ensure seamless and stable connectivity for your applications...[\(more\)](#)

Industrial WiFi Router

CTC Union's industrial 4G routers provide flexible network connectivity, supporting Ethernet, Wi-Fi, and 4G LTE, making them an ideal choice for remote access. They support secure VPN, GPS, IP routing, NAT, port forwarding, and firewall protection, and are equipped with DI/DO and serial ports. Featuring a rugged industrial design built for harsh environments, they are suitable for industries such as factory automation, intelligent transportation, water and environmental monitoring, and remote healthcare—where durability, high reliability, and continuous long-term operation are essential...[\(more\)](#)
