

## Newsletter

**Taipei, Taiwan – CTC Union Technologies**, a leading designer and manufacturer of telecommunications, data communications and industrial grade networking products, today launches a new **Industrial Managed PoE Switch**.

IGS-2408SM-24PH is a hardened designed L2 managed Ethernet switch with PoE<sup>+</sup>/PSE for rigorous demands of centralized and critical applications. IGS-2408SM-24PH supports 24x 10/100/1000BaseTX PoE/ PoE<sup>+</sup> ports, plus 8 dual speed (100/1000Base-X) SFP fiber optical slots, thus providing up to 32 ports total for Ethernet SFP ports. The switch is designed especially for harsh outdoor cabinet applications with 4kV surge protection to ensure the uninterrupted reliability of PoE systems.

IGS-2408SM-24PH is an ideal solution for smart city, surveillance, intelligent transportation systems, and process automation systems. At station, IGS-2408SM-24PH can be installed and connected to IP camera, wireless AP, PIS (Passenger Information System), TVM (Ticket Vending Machine), public address system, AFC (Automatic Fare Collection) system, and more. The switch is supported by SmartView™, CTC Union's Device Management System, with intuitive GUI for configuration and monitoring.
