CTC Union launches an Industrial Gigabit PoE Switch with compact size

IGS-800C-8PH is an unmanaged, industrial grade, Gigabit PoE switch with 8x 10/100/1000Base-T PoE ports that provides stable and reliable Ethernet transmission. IGS-800C-8PH features **low profile designed, width 42 mm and high 115 mm**, similar with PLC (Programmable Logic Controller), and supporting DIN rail or wall mounting installation. Therefore, the switch can be installed much flexibly in cabinet.

The PoE supports strong redundant dual input power 48VDC (44~57VDC) and 4KV surge protection for PoE, RJ45 and SFP ports for stabilize network transmission. With wide operating temperature range (-40 to 75°C) and variety heavy industrial certified, this switch is a perfect choice for harsh environments, such as industrial networks, intelligent transportation systems (ITS), military and utility market applications.

About CTC Union

CTC Union Technologies Co. Ltd., based in Taipei, Taiwan and founded in 1993, proactively designs and manufactures telecommunications, data communications and industrial grade networking products for a global market. With technologies based on Ethernet and Optical transmissions, CTC Union can effectively meet the requirements of voice and data carriers and enterprises, as well as industrial grade Ethernet users. With a heavy focus on reliability, certifications and new standards, this proactive thinking will allow CTC Union to continue developing solutions for today and tomorrow's markets.
