Meet CTC Union at Computex 2025

Taipei, Taiwan – CTC Union Technologies, a global leading developer and manufacturer of industrial networking products and Telecommunication solutions, is going to exhibit at Computex Taipei from 5/20-5/23, 2025. (Booth: Nangang Exhibition Center Hall 1, K0628)

CTC Union Technologies will showcase its cutting-edge products and integrated solutions at Computex 2025 exhibition, with a focus on network transmission and cyber security. These meticulously designed products are specifically used to enhance network performance, stabilize operations, meet stringent security requirements, and assist enterprises in building efficient, reliable, and secure network infrastructures.

At the Computex 2025 exhibition, the showcased products aim to deliver comprehensive solutions for a wide range of field applications. These include smart grid solutions featuring HSR/PRP network redundancy mechanisms, industrial communication cyber security solutions, intelligent railway transportation systems, and efficient routing capabilities based on Layer 3 network architecture. As we move beyond the 1Gbps networking era, our solutions leverage IEEE 802.3bz NBase-T multi-gigabit technology to deliver speeds of 2.5Gbps and beyond - using the existing cabling infrastructure. Our comprehensive product portfolio empowers a diverse range of customers to build efficient, cost-effective, and, above all, secure network transmission architectures.

About CTC Union

Established in 1993, CTC Union Technologies is a specialized network communication products manufacturer with ISO 9001 and ISO 14001 certifications, its own product R&D team and production plants. The software development system follows the security management standard **IEC62443** to enhance the security protection of our products that are used in many industries. In the spirit of continuous innovation and R&D, CTC Union Technologies provides a full range of high-quality, reliable, heavy-duty and heat-resistant products, including Industrial Ethernet, PoE, **EN50155** and **E-Mark** certified switches. With more than 30 years of experience in designing telecom products under its belt and driven by leading-edge technology and high-quality service, CTC Union Technologies has become a leading supplier of network access switching equipment and FTTx solutions worldwide.
