# *Newsletter*

Taipei, Taiwan – CTC Union Technologies, a leading designer and manufacturer of telecommunications, data communications and industrial grade networking products, today launches a new **Industrial 10G Core Switch**.

ICS-G24044X-24PH is a hardened design Layer 2 managed core switch with PoE$^+$/PSE for rigorous demands of centralize and critical applications. The switch supports 4-port 10Gbps SFP$^+$ and 24 Gigabit Ethernet (10/100/1000BaseTX) with 24 PoE$^+$ RJ-45 port plus 4 dual speed (100/1000Base-X) SFP fiber optical slots, thus providing 32 ports total for Ethernet connectivity. The ICS-G24044X-24PH is designed especially for harsh outdoor cabinet applications with 4kV surge protection to ensure the uninterrupted reliability of PoE systems.

ICS-G24044X-24PH is an ideal solution for smart city, surveillance, intelligent transportation systems, and process automation systems. At station, ICS-G24044X-24PH can be installed and connected to IP camera, wireless AP, PIS (Passenger Information System), TVM (Ticket Vending Machine), public address system, AFC (Automatic Fare Collection) system, and more. The switch is supported by SmartView™, CTC Union's Device Management System, with intuitive GUI for configuration and monitoring.
