CTC Union launches an Industrial Gigabit PoE Switch with 16-port IEEE 802.3af / 802.3at PoE+

IGS-1608SM-16PH is a managed, industrial grade, L2 Gigabit PoE (Power over Ethernet) switch that provides 16x 10/100/1000Base-T ports plus 8x 100/1000Base-X SFP ports with **up to 16 ports of 30 Watt PoE**, total power budget of 400 Watt (48VDC). The PoE features enable power and data to be transferred via a single cable to considerably reduce cabling and electrical wiring expenses. Also, the advances PoE managed supports **auto test and auto reset for PD fault-tolerant recovery** and reducing operational expenses.

Unlike commercial switch, IGS-1608SM-16PH have IP30 rated metal casing design, **4KV surge protection for PoE, RJ45 and SFP ports**, and -40 to 75°C wide

operating temperature range to fulfill the special needs in harsh environments. With variety heavy industrial certified, this switch is a perfect choice for harsh environments, such as industrial networks, intelligent transportation systems (ITS), military and utility market applications.

About CTC Union

CTC Union Technologies Co. Ltd., based in Taipei, Taiwan and founded in 1993, proactively designs and manufactures telecommunications, data communications and industrial grade networking products for a global market. With technologies based on Ethernet and Optical transmissions, CTC Union can effectively meet the requirements of voice and data carriers and enterprises, as well as industrial grade Ethernet users. With a heavy focus on reliability, certifications and new standards, this proactive thinking will allow CTC Union to continue developing solutions for today and tomorrow's markets.
