

## Newsletter

**Taipei, Taiwan – CTC Union Technologies**, a leading designer and manufacturer of telecommunications, data communications and industrial grade networking products, today launches new **Industrial EN50155 Ethernet Switches**.

The ITP-800A and ITP-800A-8PH24 are unmanaged Ethernet switch and PoE switch that provide 8 x 10/100Base-TX or 8 x 10/100Base-TX PoE+ Ethernet ports (power budget 120W). These Ethernet switches are designed for industrial applications in harsh environments with Ethernet ports that utilize M12 connectors to ensure watertight, robust connections

and guarantee reliable operation against environmental disturbances such as vibration and shock. These series Ethernet switches are compliant with EN50155, covering operating temperature, power input voltage, surge, ESD, vibration, and shock, thus making these switches suitable for industrial applications in vehicle, rolling stock and factory automation.

### About CTC Union

CTC Union Technologies Co. Ltd., based in Taipei, Taiwan and founded in 1993, proactively designs and manufactures telecommunications, data communications and industrial grade networking products for a global market. With technologies based on Ethernet and Optical transmissions, CTC Union can effectively meet the requirements of voice and data carriers and enterprises, as well as industrial grade Ethernet users. With a heavy focus on reliability, certifications and new standards, this proactive thinking will allow CTC Union to continue developing solutions for today and tomorrow's markets.
