

Product Press Release

CTC Union releases E-Mark Certified PoE Switch

Taipei, Taiwan – CTC Union Technologies, a leading designer and manufacturer of telecommunications, data communications and industrial grade networking products. CTC Union has introduced its latest product spotlight - E-Mark Certified PoE Switch

E-Mark certification is a European compliance mark. For automobiles, motorcycles and their safety spare parts, they must be passed in accordance with the provisions of the European Union Directives (EEC Directives) and the European Economic Commission Regulation (ECE Regulation). If the product meets the E-Mark certification requirements, a certificate of conformity will be issued to ensure driving safety and environmental protection requirements.

CTCU industrial grade PoE switches **IVS-802GT-8PH24** and **IVS-G802T-8PH24** are E-Mark certified and equipped with 10 Ethernet ports, supporting Fast Ethernet, Gigabit Ethernet and PoE functions. IVS-802GT-8PH24 and IVS-G802T-8PH24 support power input range 24/48VDC and each PoE-supported port can provide up to 30W stable power input to connected devices such as IP cameras, wireless access points, etc. Combined with flow control function and jumbo frame support, possibilities of data packet loss and network congestion can be prevented. Thus, both PoE switches can also handle larger data packets and are suitable for applications with high bandwidth requirements. IVS-802GT-8PH24 and IVS-G802T-8PH24 are fanless design with sturdy metal housing and provide excellent dustproof and waterproof performance. Both PoE switches can adapt to various harsh environments which make the switches the best choice for vehicle and transportation applications.

About CTC Union

Established in 1993, CTC Union Technologies is a specialized network communication products manufacturer with ISO 9001 and ISO 14001 certifications, its own product R&D team and production plants. The software development system follows the security management standard **IEC62443** to enhance the security protection of our products that are used in many industries. In the spirit of continuous innovation and R&D, CTC Union Technologies provides a full range of high-quality, reliable, heavy-duty and heat-resistant products, including Industrial Ethernet, PoE, **EN50155** and **E-Mark** certified switches. With more than 30 years of experience in designing telecom products under its belt and driven by leading-edge technology and high-quality service, CTC Union Technologies has become a leading supplier of network access switching equipment and FTTx solutions worldwide.
